ABOUT US

Leading the future with top-class FM Services

2008

We are a tech-aware, impact-led organization that treats environments as enablers – not just expenses.

2012

Expanded nationwide and secured key contracts across pharma, transport, tech, and manufacturing.

2017

Became the only FM company in Saudi Arabia managing high-speed passenger trains.

2015

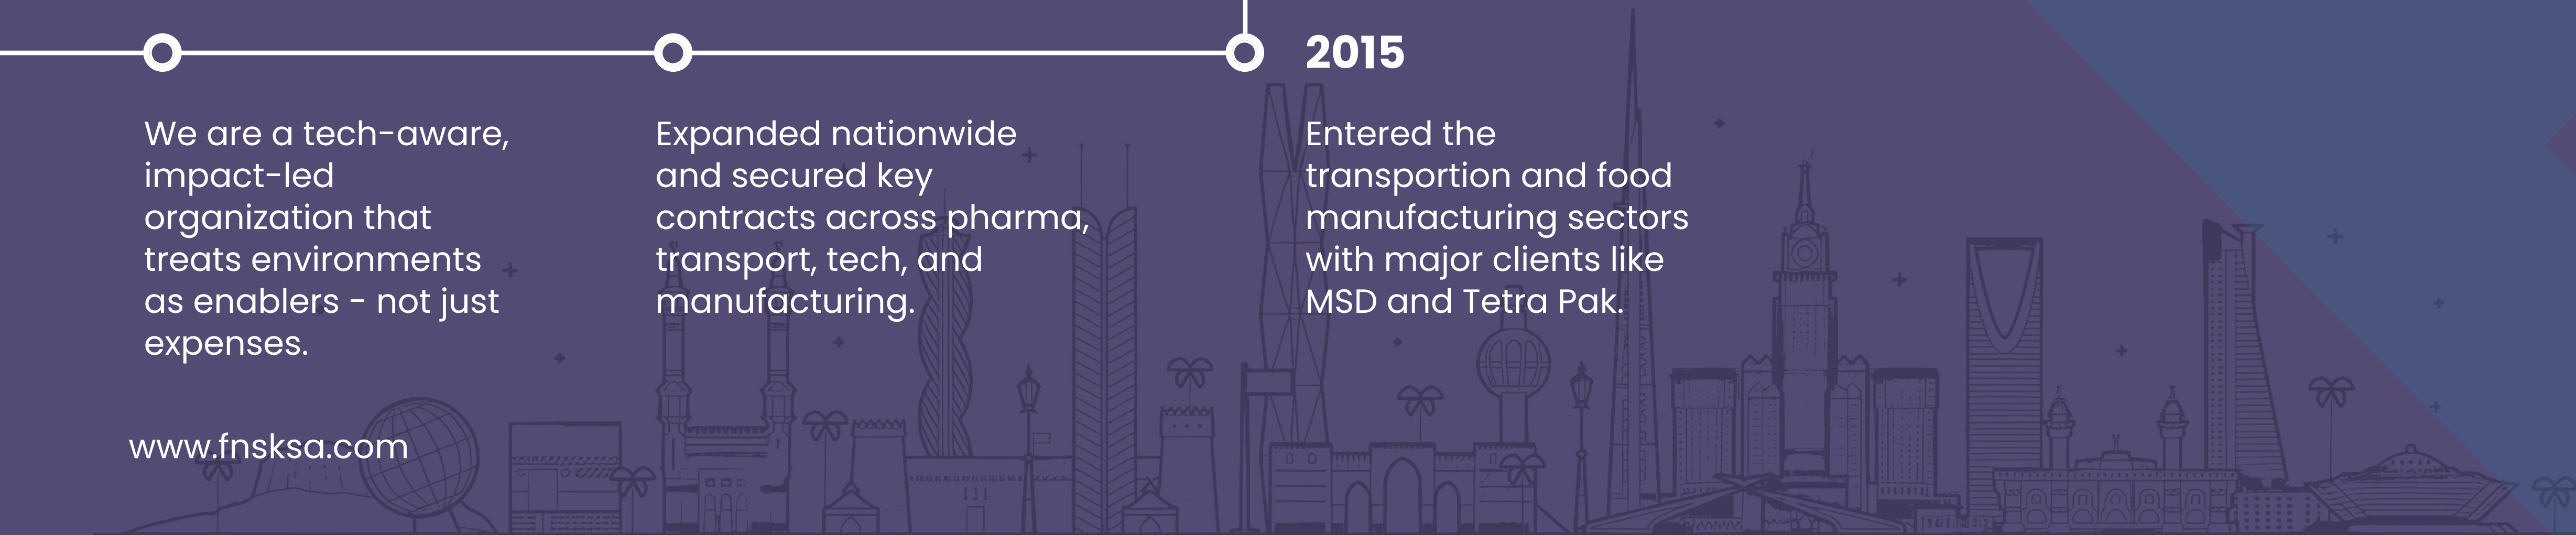

Entered the transportation and food manufacturing sectors with major clients like MSD and Tetra Pak.

2018–19

Expanded regionally into UAE and Bahrain, strengthening presence in the GCC

2025 – Onwards

Built a strong, diverse client base across corporate and industrial sectors.

WHY IS IT NEEDED

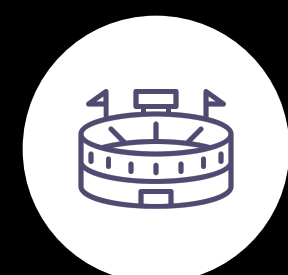

Facilities Management is the ongoing process of maintaining and managing buildings and spaces after construction, ensuring they remain clean, safe, efficient, and fully functional for everyday use.

A hotel that is not cleaned loses guests

A metro station must be cleaned, maintained, and kept safe – every single day.

A stadium with broken air conditioning creates a bad experience

An Office with late repairs stops work and wastes time.

FACILITIES MANAGEMENT SERVICES

Outstanding Services with exceptional results

FM Consultation

Our facilities management consultancy services offer a wide range of solutions which will be beneficial for the lifecycle of the facility.

Management Services

Project Management, Asset management, Risk management, Supplementry resource management.

Integrated Facilities Management

As Saudi Arabia builds for the future,
Facilities Management keeps that
future running!

CLIENTS

TECHNOLOGY AND INNOVATION

Technology Solutions

FNS uses modern facility management technologies, including CMMS, to improve efficiency, transparency, and preventive maintenance while reducing downtime.

Innovation and Sustainability

FNS adopts smart, energy-efficient solutions and data-driven practices to optimize resources, extend asset life, and support sustainable facility operations.

QUALITY AND SAFETY

Quality Management

FNS applies structured quality management processes to ensure consistent, compliant, and high-standard service delivery across all facilities.

Safety Management

Safety is a top priority at FNS. We implement effective safety systems, including risk assessment, staff training, and regulatory compliance, to protect people and assets.

CUSTOMER INSIGHTS

“FNS has consistently delivered high-quality cleaning and support services with strong attention to detail. Their professionalism and reliability have made them a trusted facilities partner.”
